

Supply List – Introduction to Pigment Patchwork

with Rhonda Denney – KCRQF 2025

Rhonda Denney, email: Rhonda@RhondaDenney.com

Student supplied items:

1. Black Ultra-Fine tip marker, or pens, pencils & notebook or paper. These items are for notes (on fabric and paper).
2. Old cover shirt to protect your clothing.
3. Old cloth towels / paper towels—for clean-up of hands and brushes.
4. A set of 24 Derwent InkTense Pencils. Derwent is the only manufacturer that makes these inks in a pencil form.
5. Aloe Vera 100% Gel, no color added. Aloe Vera 100% Gel is usually available in a bottle and people use it as a moisturizer for the skin.
6. Optional: Color pencils. You can use these to trace your pattern instead of a regular lead pencil. Rhonda will discuss this during the workshop.
7. At least 6 pieces of muslin or neutral-color cotton, no smaller than 10” x 12”.
8. Freezer Paper, enough for all the pieces of muslin you will use in the workshop. Cut into pieces the same size as your fabric.
9. Variety of inexpensive paintbrushes of various sizes.
10. Iron & ironing surface.
11. Light box to trace patterns, or use of a window.
12. Parchment (baking) paper for iron surface and under iron to protect it from pigments.
13. Small containers (e.g. Bottle caps) to hold water and mix colors if you want (optional). Rhonda will have some with her for you.
14. Water in a small container (bottle) to clean your brushes.
15. Pencil Sharpener (preferably the higher quality metal sharpeners with blades secured by a screw so you can sharpen them).
16. Paper to cover and protect tables from pigments.
17. Tape to secure fabric when tracing and drawing (Blue/Green/Orange Painter's tape is best, otherwise masking tape)
18. Fixatives. Optional. Wait until the workshop when Rhonda will cover options. Your choice may be determined by how you plan to use pigments on fabric. Details in the workshop! Rhonda will have some for you to try.

Workshop Kit contents:

- Printed pattern (choice of 4 patterns) with related reference pictures.
- Exercise testing sheet master.
