Supply List for Finishing Up!

Quilt Sandwich- You will need two 14" square sandwiches and one 10" square sandwich-***This is very important!!!***

Construct each sandwich from muslin; fabric you no longer like; or scrap. This is what you will be using as a base for learning the techniques.

Layer batting between two fabrics-sew around the edge and stitch a simple "x' diagonally from corner to corner. Make two that 14" square and one that is 10" square.

We will cover different techniques to finish the ends of bindings as we make these techinques.

TECHNIQUE 1-Accent Strip Attached and Floating

Two strips of fabric 1 ½" by 12"- pressed with the long edges wrong sides together.

Two leftover binding strips from your stash that are at least 16 " long. If you don't have leftover binding-make binding by cutting a 2 ¼ by 16"-do this twice. Fold in half lengthwise and press.

TECHNIQUE 2 – Two-Pieced binding

One strip of fabric 1 7/8" by 14"

One contrasting strip of fabric 1 ¼" by 14"

TECHNIQUE 3-Turned Facing

One 10" square of fabric

One 10" quilt sandwich*-see above

TECHNIQUES 4 & 5-Prairie Points and Turned Down Back

Six -3 ½" squares

TECHNIQUE 6- Edge Circles and Traditional Facing

Cut three 3" circles

Cut three 3" circles of a contrasting fabric

(use a template or a household item to trace your circles. If your cicrles are slightly bigger or smaller, that is fine, as long as they are all the same size.)

Sew one circle of first fabric to a circle of the other fabric- right sides together- Sew around the edge. Do this for all three pairs. We will continue the process in class. Making the circle pairs ahead of time, saves time in class.

Two 4 ½" by 18" strips of fabric

Other supplies:
Pen or pencil, pins, thread, scissors, rotary cutter and small mat.
Sewing machine
Iron and pressing surface

I will provide written instructions for each technique.
